

TAX EXEMPTION

Dear Customer,

The following customers qualify for tax exempt orders.

NONPROFIT ORGANIZATIONS

Nonprofit organizations who can present proof of tax exemption from their current business/organization address in the state of Illinois may place their order without tax. Tax exempt forms for organizations and businesses must be sent via email or fax prior to delivery. Once the tax exemption is verified orders may be placed. When placing your order use the Offline option in the payment section. Any order over 10 servings must be placed through our catering service. Please call for more information. Customer payments are required upon delivery by check or debit/credit card. All final orders before taxes must total a minimum of \$60. No cash payments accepted. Once the payment amount has cleared a receipt will be issued via mobile register, email, or fax.

SNAP/EBT/LINK CARD USERS

Customers who are currently receiving SNAP/EBT benefits may use their Link card to pay for orders. If using a Link/EBT/Snap card or account, please have your payment card with photo ID upon delivery. When placing your order use the Offline option in the payment section. You must pay the total amount due upon delivery. All final orders before taxes must total a minimum of \$60. You must have enough on your card to cover the entire balance of your order. No cash payments accepted. If you would like to pay the remaining balance using a debit/credit card you must call first or email to notify us of this option prior to delivery.
